Brand Typography.

Our primary typefaces are

Inter Tight (Variable) and Figgins Sans — chosen for their unique balance of modern structure and historical character.

Together, they create a pairing that feels both timeless and distinct — supporting a visual identity that's bold, smart, and grounded in design heritage.

Desktop Icon.

Icon Twitter "X".

The Twitter icon utilizes a simplified logo mark to maintain clarity in small spaces. It ensures the brand remains recognizable on social media platforms, aligning with the company's digital presence.

Icon Instagram

The Instagram icon maintains the brand's visual identity, ensuring the logo mark is clear and legible within the circular icon format. It is designed to create a cohesive look on social media.

DEAR SIR,

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.

It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

From,
Arijit Sinharoy
Creative Director

Sincerely,
